

ECP CASE STUDY

A Case Study for successfully submitting an education and care plan to educational licensing authorities in the UAE.

www.prminds.org

INTRODUCTION

Professional Minds MEA has been licensed in the UAE since 2011, specialising as advisors in early childhood education and development.

Client A school in Dubai, operational for over 15 years with over three campuses in the UAE. The school set up a nursery using the American curriculum for over 120 children.

PRMINDS STRATEGY

- Set up team to focus on rewriting the academic plan.
- Worked within budget.
- Prepared action plan and stuck to timing for delivering scope of works.
- Provided additional professional expertise as required.
- Advised school's senior leadership team using high levels of expertise.

SOLUTION

1. Worked effectively with school leadership

Kept leadership team involved and updated, taking into consideration the vision for the nursery.

2. Secured Ministry of Education license.

Complied with Ministry rules and regulations, using expertise in early childhood education and development.

3. Ensured opening of new nursery.

Worked within strict deadlines, coaching leaders for successful start-up, providing content for best practice.

AT A GLANCE

CHALLENGES

- Rejected academic plan
- Urgent requirement to start up
- Need to save time and money

BENEFITS

- Quick response from Professional Minds
- Ability to open nursery confidently.
