THE PRESCHOOL AUDIT

As a nursery owner/investor have you ever considered these questions?

- I have been running a nursery for a while, am I sure that it's operating at its optimal level?
- With all of the investment that I have made, in terms of money, time and effort am I happy with the day-to-day operation of my early childhood centre?
- Is it time for me to review what's going on in my nursery and attract more families to fill those empty seats?
- How can I be sure about the competency levels of my staff; can their performance be improved?
- Is everyone working in line with the chosen curriculum?

THE PRESCHOOL AUDIT

This audit is similar to spring cleaning your home! It's a professional spring clean.

Professional Minds has a system for looking at your overall operation with a view to improvement. It's about:-

- Improving systems
- Improving teaching and learning
- Improving leadership

Using research-based methods, we will take the time to understand the way that your setting works (or does not work) and define steps for change and improvement.

The Preschool Audit can be used alongside any curriculum, as the emphasis is on best international practices in early years.

THE PRESCHOOL AUDIT

Time is a pivotal word in this process, as such The Preschool Audit takes the form of:

- Visits to your preschool/kindergarten
- Observations of each classroom and learning space (subject to Covid restrictions)
- Coaching leaders for success
- Written recommendations for improvement

To find out more about The Preschool Audit you are invited to a free 20-minute discovery call with Patricia Mezu, the founder and director of Professional Minds.
